7 Attorney for Plaintiff

8 IN THE UNITED STATES DISTRICT COURT
9 SOUTHERN DISTRICT OF CALIFORNIA

10 RAYMOND BERRY,

11 Plaintiff,

12 vs.

13 TIMBERLINE MOULDING, et al. and DOES
14 1 THROUGH 10, Inclusive,

15 Defendants.

Case No.: 08 CV 0352 BEN
(CAB)

**AMENDED DECLARATION OF
RAYMOND BERRY IN SUPPORT
OF PLAINTIFF'S OPPOSITION
TO MOTION TO DISMISS AND
REQUEST FOR SANCTIONS
AGAINST SUSAN WAIT**

Date: June 2, 2008
Time: 10:30 a.m.
Judge: The Honorable Roger
T. Benitez

18
19 I, RAYMOND BERRY, declare:

20 1. I am the Plaintiff in this action. I have personal
21 knowledge of the following facts and, if called as a witness,
22 could and would testify to the following:

23 2. I am a quadriplegic and have limited use of my hands.
24 I use a wheelchair for mobility. I visited Timberline Moulding
25 on two occasions in June or July of 2007 and on October 2, 2007.
26 On my first visit, I went to Timberline Moulding to obtain
27 information about the products available and the pricing of the
28 products. I wanted to have hand railing installed on a staircase

1 in my home. It was a small job and I wanted to find an installer
2 before I actually purchased the material.

3 3. When I first arrived at the property, I had difficulty
4 parking because there was no accessible parking space and there
5 were pylons and other cars parked in the lot, thus limiting the
6 amount of space available for me to park my van, which has a side
7 lift. I had to maneuver my van so that the lift would not hit one
8 of the pylons as my ramp deployed.

9 4. I then went through the entrance to the business and
10 went to the customer service counter. I have reviewed Exhibits
11 "A" and "B" to the Defendants' Motion to Dismiss. Neither the
12 pull-out counter, nor the lowered counter depicted in those
13 photographs were at the customer service counter during my first
14 visit to Timberline Moulding.

15 5. After about 3 to 5 minutes, the staff seemed to notice
16 me and a man came over to assist me. I told him I was looking
17 for stair railings. He brought me some written information about
18 the styles and materials available and the pricing. The customer
19 service counter was too high and I was not able to read the
20 papers on the existing counter so the man set the papers on my
21 lap. I have difficulty holding papers due to my disability. It
22 would have been much easier for me to review the paperwork if I
23 could have placed the papers on a flat lowered counter, side by
24 side. When papers are on my lap, they are not flat and are
25 difficult to maneuver if I need to change the viewing angle.
26 Attached hereto as Exhibit "5" are true and correct copies of the
27 documents I received during my first visit to Timberline
28 Moulding.

1 6. At no time did the man who assisted me ever show me an
2 accessible counter or offer me an accessible counter to use.

3 7. After some discussion about the products an my
4 anticipated project, the man gave me the business cards and
5 telephone numbers of some installers. I was at the business for
6 approximately 20 minutes on my first visit.

7 8. As I was leaving after that first visit, the Timberline
8 employee walked with me to my van and I told him that they needed
9 an accessible parking space. He told me that a friend of his in
10 a wheelchair had said the same thing before. He said he had told
11 the owner about the lack of an accessible parking space but that
12 "the owner doesn't always listen to my suggestions." I told him
13 that he should "tell the owner again because this is a pretty
14 serious thing." He indicated that he would speak again with the
15 owner.

16 9. I returned to Timberline Moulding on October 2, 2007 to
17 see if they had made the modifications to the parking lot I had
18 requested during my first visit. I still had not had the hand
19 railing installed. I had called the installers they had referred
20 me to, but only one installer responded to my calls. He never
21 appeared at our scheduled appointment. I also returned to
22 Timberline because I wanted to check out additional products and
23 to see if they had any other referrals.

24 10. When I found that they had still not installed an
25 accessible parking space, I was rather perturbed. Not only had
26 they not responded to the earlier complaint from the other person
27 in a wheelchair, but they did not respond to my specific request
28 for a parking space. I concluded that I would need to file a

lawsuit to compel compliance with accessibility laws.

11. At the time that I filed my lawsuit, I still wanted to return to Timberline but I was deterred because of the absence of an accessible parking space.

12. I have reviewed Exhibit "1" to Mr. Mohamed's Declaration and those photographs accurately depict the condition of the parking lot with respect to the absence of an accessible parking space during both of my visits to the property. I also reviewed Defendants' Exhibits "H" and "I". The parking spaces depicted in those photographs did not exist on either of my visits to Timberline Moulding.

I declare under penalty of perjury under the laws of the State of California and the United States of America that the foregoing is true and correct.

Executed this 16th day of May, 2008 at San Diego, California.
